

Students

Field Trips

To the extent that budgetary resources permit, the Board of Education encourages and sanctions student trips or other out-of-district school activities including participation in extracurricular and interscholastic events and international travel that are of value in helping achieve each participating student's educational objectives. All trips shall be planned and supervised by authorized personnel and approved in keeping with established regulations. The Board assumes responsibility only for school-sponsored trips. Personal trips organized by members of the school community, including school staff members and/or parents, when such trip are not planned or supervised by the Board or approved in accordance with these guidelines are the sole responsibility of the trip organizer(s).

The Superintendent shall develop regulations to ensure that all field trips serve important educational objectives related to the school system's curricula and that such field trips are carried out in a safe and orderly fashion.
