

Students

School Attendance Areas

Attendance areas for the various elementary schools of the district shall be drawn up by the administration and approved by the Board. These areas shall take into account transportation considerations and school capacity. When possible, lines shall be drawn so that a student will attend the elementary school closest to his/her place of residence.

Students shall attend the elementary school in the attendance area in which they live unless an exception is made by the Superintendent in the best interest of the student or the school. Requests for exceptions must be submitted to the Superintendent in writing. All approvals shall be for one school year only and parents/guardians are responsible for the punctual transportation to and from school. Enrollments and available space will be a consideration in the Superintendent's decision. Requests for alternative school assignments must be resubmitted annually.
